

AEROGREEN 4140 CONCRETE CLEANER

PRODUCT DESCRIPTION:

AEROGREEN 4140 CONCRETE CLEANER is made to clean various concrete surfaces to remove dirt, oils, mold and mildew. Aerogreen 4140 helps maintain the durability and strength of concrete surfaces.

FEATURES:

- Concentrated solution
- Acts quickly to dissolve dirt, grease, and oils
- Suitable for both indoor and outdoor use
- Free of any harmful solvents, bleach, chlorine, toxic powders
- Revive the appearance of worn-out or weathered concrete surfaces

BENEFITS:

- No hazardous waste disposal cost
- Leaves no residue behind
- Eliminates the need for extensive scrubbing
- Safe to use around plants and animals
- Allowed for direct release
- Biodegradable
- Environmentally safe

WHAT IS IT:

AEROGREEN 4140 quickly and easily removes heavy contaminants such as dirt, oil, grease, fuel residue, mold, mildew, fungus, and soil from the surface. The use of the concrete cleaner will inhibit the growth of mold and mildew, which extends the life of the concrete.

WHAT IS IT USED FOR:

Aerogreen 4140 is essential for deep cleaning, stain removal, surface preparation, and routine maintenance of both interior and exterior concrete areas. Regular cleaning with 4140 helps to maintain the appearance and longevity of concrete surfaces.

HOW IT WORKS:

It works by penetrating the porous surface of concrete and utilizing a combination of cleaning agents, detergents, and surfactants to break down and remove stains, dirt, grime, and contaminants. They chemically react with substances like oil and grease, emulsify and suspend dirt particles, and dislodge embedded contaminants. After application, the cleaner is rinsed off with water, leaving behind a clean and refreshed concrete surface.

APPLICATION GUIDELINES:

Ambient temperature: Aerogreen 4140 must be applied between 40-90 degrees ° F.

Dilution: Dilute Aerogreen 4140 with water 3:1 (3 parts water to 1 part Aerogreen 4140).

Use with a sprayer: Add the diluted product to a coarse sprayer or low-pressure sprayer. Conduct a small test patch in an inconspicuous area to ensure product performance. Spray the area. Soak the entire surface to be cleaned and allow it to sit for 10-15 minutes.

For areas with heavy staining: Scrub the surface using a broom or brush, the solution will foam. Finish by rinsing the concrete thoroughly with a power washer.

AEROGREEN 4140 can be used on concrete, brick, stone, marble, interior/exterior concrete surfaces, and the exterior/interior of industrial buildings.

SPECIFICATIONS:

• Biodegradable	Yes
• Flammable	No
• Combustible	No
• SCAQMD	Yes
• Water Solubility	100%
• Contains Terpenes	No
• Caustics	No
• Oil/Water Separator Compatible	Yes

ORDERING INFORMATION

Aerogreen Product Number

4140P	5 Gallon Pail
4140D	55 Gallon Drum
4140T275	275 Gallon Tote
4140T330	330 Gallon Tote

SAFETY/CAUTION:

Rubber gloves are recommended to prevent drying of the skin. Wear goggles to protect eyes if splashing is expected. When heated above 125 F, mechanical or local ventilation is required. When using the product in steam cleaning and/or pressure washing applications wear a rain suit and boots to keep clothes dry. Harmful if swallowed. Avoid getting into eyes. If contact occurs, flush with running water. If irritation persists, get medical attention. May cause dryness of skin with prolonged use, wash hands with cold water and apply a hand lotion.
