

PAIN T PREP SOLUTIONS

SHERWIN-WILLIAMS®

SURFACE PREPARATION

PAINT PREP CLEANER

AEROGREEN® 4110 cleans metal by removing oils, dirt, grease, waxes, polishing compounds, salts, soluble oils, drilling and cutting compounds, as well as other surface contaminants that prevent coatings from adhering to metal surfaces as outlined in the SSPC-SPI International Standards. This concentrated paint prep cleaner leaves no residue and can be used prior to coating, in between application of the primer and topcoat, and as a final cleaning to ensure products are customer ready.

READY WIPES

AEROGREEN® 4110 Ready Wipe Paint Prep is a direct drop-in replacement for solvent-type cleaners, such as lacquer thinners, MIBK, MEK, IPA, acetone and other high-VOC solvents. These ready-to-use wipes give you a wipe-on, wipe-off solution with no rinsing required.

HIGH-PRESSURE CLEANER DEGREASER

To speed up surface preparation, use AEROGREEN® 4130 with your power-washing equipment. This product is ideal for cleaning large surfaces, intricate items and mass production of parts – and leaves no residue. The combination of AEROGREEN 4130 and pressurized spray rids surfaces of dirt, oils, greases and other surface contaminants prior to liquid and powder coating application.

UV LINE AND ROLL COATER CLEANER

Various parts of roll coating machines need to be consistently cleaned to keep the line running at a constant speed. AEROGREEN® 4175, a UV line and roll coater cleaner, replaces the use of acetone to clean roll coating equipment.

AEROGREEN 4110 PAINT PREP CLEANER

SIZE	SMIS NUMBER
32 oz.	592-2810
1 gallon	592-2828
5 gallon	592-2554
55 gallon	592-2802
330 gallon	592-2836

AEROGREEN 4110 READY WIPE PAINT PREP

SIZE	SMIS NUMBER
Tub	1013-11306

AEROGREEN 4130 HIGH-PRESSURE CLEANER DEGREASER

SIZE	SMIS NUMBER

SIZE	SMIS NUMBER
1 gallon	943-3715
5 gallon	592-2992
55 gallon	592-3057
330 gallon	592-3073

Surface preparation is a critical step in the coatings process as it directly impacts paint performance and adhesion. Using AEROGREEN® products will ensure exceptional surface preparation for all liquid and powder finishes.

PARTS WASHER DEGREASER

AEROGREEN® 4160 is a concentrated degreaser to use in immersion degreasers, ultrasonic degreasers, spray cabinet washers, parts washers, glove box washers, and hot and cold standard parts washers. Ideal for cleaning large parts and batches, this washer solution can be used to clean metal surfaces prior to applying a coating.

SIZE	SMIS NUMBER
5 gallon	592-2950
55 gallon	592-2976
330 gallon	592-2984

RUST REMOVER AND METAL PREP

As a concentrated, water-reducible phosphoric acid and detergent blend, AEROGREEN® AC-10 is formulated to clean metal surfaces, remove rust, and profile steel, cast iron, galvanized metals, zinc and high-polished aluminum prior to painting. AC-10 can also prepare a surface for a subsequent chemical coating, including liquid and powder finishes. If this solution is not rinsed, it will leave a phosphate residue on the surface that aids in providing good adhesion. AC-10 is ideal for industrial, automotive, agriculture, transportation and marine industries.

AEROGREEN AC-10 RUST REMOVER

SIZE	SMIS NUMBER
1 gallon	938-8927
5 gallon	592-3081
55 gallon	592-3099
330 gallon	592-3107

PAINT & GRAFFITI REMOVER

AEROGREEN® 4180 is an eco-friendly paint remover that is low in odor, non-hazardous, non-flammable, non-corrosive and biodegradable. It is formulated to replace hazardous solvents commonly used in paint stripping, including methylene chloride, mineral spirits, MEK, naphtha, N-Methyl-2-Pyrrolidone and toluene. This solvent is designed to safely soften and remove multiple layers of paint and coatings.

1 gallon	1005-19388
5 gallon	1004-44470

HOW TO ELIMINATE ACETONE IN YOUR AUTOMATED SPRAY LINE EQUIPMENT

Replace the use of acetone in your customer's automatic spray line equipment by choosing AEROGREEN 4110 water-based solutions as a cleaner for water-based finishes and AEROGREEN 4175 for UV finishes. These products deliver exceptional results and an environmentally friendly solution for use in custom spray lines, nozzles, tips, rollers and belts. Using these products can also deliver the following benefits:

- Reduces the amount of hazardous waste produced
- Soaks tank filters to keep them unclogged
- Cleans interior housing of spray lines
- Eliminates contamination to fresh finishes

PAINT PREP SOLUTIONS

Since 1866, Sherwin-Williams has provided manufacturers and finishers with the coatings they need to make their products look better and last longer, while helping their operations meet productivity and sustainability goals. Our innovative solutions go beyond coatings to include knowledge, tools, equipment, supplies and industry-leading support. For a better finish, ask Sherwin-Williams.
